PROFESSIONAL SUMMARY

IT Product Manager / Product Owner with 6 years of experience driving B2B SaaS product management, Agile execution (Scrum, SAFe), and complex program delivery. Proven track record in defining product roadmaps, managing backlogs, delivering high-impact features, and driving customer engagement across APAC, EMEA, and MENA regions. Data-driven leader with strong stakeholder communication skills and a unique blend of technical expertise and business acumen.

KEY SKILLS

Product & Agile	Product Roadmap, Backlog & Sprint Planning, User Stories, Scrum, SAFe, AgilePM
Technical Ecosystem	B2B SaaS, Low-Code/No-Code, JIRA, Figma, Mendix, Power Apps, Python, C#, SAP, Power BI, GIS/QGIS
Management & Strategy	Multi-Project Steering, Cross-Functional Leadership, PMO, Executive Reporting, Matrix Organizations
Analytics & Data	Advanced Excel (Macros), Dashboards, R, Competitive Analysis, Go-To-Market (GTM) Strategy
Languages	Anglais C1 (IELTS) · Français A2 · Hindi B2 · Tamil C2

EXPÉRIENCE PROFESSIONNELLE

Product Consultant - Retail Operations & Analytics

ZiA Distribution · France | August 2025 – Present

- Designed and deployed an Excel-based invoicing and inventory management solution to digitalize paper-based operations, improving transaction control and stock accuracy.
- Built standardized product and stock catalogs to enable real-time tracking of inventory levels and sales volumes.
- Developed automated sales reporting dashboards (daily/monthly/annual) to drive data-backed retail planning.
- Created optimized process workflows and Excel macros to minimize manual data entry, boost data reliability, and support operational scalability.
- Gathered requirements from field stakeholders, prioritized the feature backlog (invoicing, inventory, reporting), and led continuous functional iterations.
- Produced marketing catalogs for perfumes and air fresheners to boost product visibility and commercial execution.

Product Manager - Low-Code/No-Code SaaS Platform

Boston Harbor Consulting · India | April 2023 – January 2024

- Steered the product roadmap and delivery of a key Low-Code SaaS tool ("Quickly") for enterprise clients, leveraging customer feedback, market trends, and competitive analysis.
- Delivered 20+ major features (including multilingual support and enhanced security layers), significantly improving product accessibility and B2B compliance.
- Achieved a 95% sprint success rate and reduced delivery lead times by 15% through clear backlog prioritization and tight cross-functional alignment between Design, Engineering, and QA teams.
- Led client product demonstrations, technical pre-sales sessions, and collected post-launch user feedback.

Product Manager / Product Owner - Engineering SaaS Suite

DimsoIn Technology LLP · India | January 2019 – April 2023

- Defined the product strategy and drove international deployment for a software suite used by 200+ enterprise clients across public and private sectors in APAC & MENA regions.
- Accelerated SaaS sales growth by over 300% in 2021 and 125% in 2022 by spearheading a subscription migration model and targeted market penetration campaigns.
- Successfully delivered 70+ features and 8 major releases utilizing user feedback, market research, and data analytics.
- Provided post-sales training and support for 4,500+ users, driving product adoption and customer retention.
- Facilitated pre-sales workshops and strategic planning sessions with C-level executives.

Senior Software Engineer - AI/ML Product

Exo-Field Engineering Solutions · India | January 2018 – January 2019

- Developed an AI/ML anomaly detection product for oil drilling operations, managing the lifecycle from technical specifications to final delivery (rapid prototyping, 3D printing, and testing).

Project Manager / Product Analyst - Core Engineering (PMO)

Reliance Industries Ltd. · Navi Mumbai, India | May 2014 – December 2017

- Managed multi-billion-dollar infrastructure projects (petrochemicals, energy, utilities); automated executive reporting via advanced Excel macros and SAP to streamline leadership decision-making.

EDUCATION

Master's Degree in Project & Programme Management / Business Development

SKEMA Business School · Paris | 2024 – 2025

- Thesis: *Decision-Making in Virtual Reality: Feedback, Incentives, and Performance Analysis*
- Research Assistant (Sustainability Center, March – July 2025): Developed R scripts, APIs, and interactive dashboards to analyze 75 years of climate data across 5,500 locations

Postgraduate Diploma in Computer Science & Engineering (BAC+5)

Annamalai University · India | 2018 – 2019

Bachelor of Engineering (BAC+4)

Anna University · India | 2006 – 2010
