PROFESSIONAL SUMMARY

Engineer-turned-product leader with **15 years** of experience, **8+ in product**, in technical B2B software and large programmes. Owned an engineering-software suite from inception through **8 releases and 70+ features**, deployed at **200+ enterprise clients** including ADNOC, Qatar Gas and PDO, and grew APAC sales **+300% (2021)** and **+125% (2022)** by migrating clients to subscription licensing. Manager in the PMO of Reliance's **US$13B+** J3 petrochemical programme. MSc in Project & Programme Management, SKEMA Business School Paris (2025).

KEY SKILLS

Product & Agile	Roadmap and backlog ownership, epics and user stories (definition of ready), Scrum, SAFe, AgilePM, market and competitor research, go-to-market
Delivery & PMO	PMO reporting and forecasting, risk and root-cause analysis, quality-management systems, UAT and testing (ISTQB)
Customer-facing	Technical presales, product demos, training workshops, sales events, channel/reseller programmes
Data & tools	Power BI, SQL, Excel VBA/macros, R and R Shiny, Python, QGIS, JIRA, Confluence, Figma, Azure DevOps, Power Automate, Salesforce, Mendix, SAP MM, Dynamics 365
Languages	English: native/bilingual · French: A2–B1 (pre-intermediate) · Hindi: professional working · Tamil: native

PROFESSIONAL EXPERIENCE

Consultant Product Manager – Retail Operations & Analytics · ZiA Distribution, France 08/2025 – 07/2026
Freelance, reporting to the Director · 1 depot, ~700 products, 5 users · mission ended when the parent company was liquidated

- Designed and launched an offline-friendly billing and stock-management (POS) solution that replaced paper-based operations: **7,500+ transactions over 8 months**.
- Built product and stock catalogues, three pricing logics, BOM and invoice creation, and automated daily/monthly/yearly sales dashboards, giving full stock visibility and remote sales monitoring.
- Designed a simple UX for staff with little computer experience (3-character product prediction) plus hands-on training; the team uses the tool day to day.
- Gathered and prioritised requirements with store stakeholders; produced marketing catalogues for perfumes and air fresheners.

Research Assistant · SKEMA Business School, Center of Sustainability, Paris 03/2025 – 07/2025

- Automated extraction of 35GB+ of daily NetCDF climate data (75 years, 5,500+ locations) with multithreaded R scripts: **~110× faster** (5 locations/day to 5,500 in 10 days), bringing the project forward **~6 months**.
- Ran QGIS geospatial analysis (digital elevation + climate data); built Excel and R Shiny dashboards; managed a 5,100+ record contact database and targeted outreach.

Product Manager · Boston Harbor Consulting, Chennai 04/2023 – 01/2024
Product: Quickly, a low-code/no-code PaaS for enterprise SaaS · Scrum team of 11 · 3-week sprints

- Took the product from ~10% complete to **MVP-ready in 8 months** as Product Owner: roadmap, objectively prioritised backlog, estimation and timelines.
- Wrote sprint-ready JIRA stories with value statements, acceptance criteria and wireframes; worked with Dev, QA, UX and Content teams; drew feature sets from Salesforce and Mendix.
- Delivered **20+ feature sets**, including a subscription and payment-journey pilot (CRM pilot), multilingual support, themes and CSRF/XSS protection, with demos for key stakeholders.

Lead Engineer – Products (Product Manager / Product Owner), APAC/MENA · Dimsoln Technology LLP, Mumbai 01/2019 – 04/2023
Affiliate of Dimensional Solutions Inc., USA · licensed Foundation Design Suite (Mat3d, Foundation3d, Shaft3d, DSTank, DSAnchor) · ~15-person cross-functional team, reporting to CEO and CTO

- Owned the product from inception to go-to-market: **8 releases, 70+ features**, 4,000+ active users.
- Deployed at **200+ enterprise clients** across public and private sectors (ADNOC, ADNOC Refining, Qatar Gas, PDO, Reliance Industries, Engineers India), from lead conversion and technical presales to implementation, training and support.
- Grew APAC sales **+300% in 2021** and **+125% in 2022** by migrating clients to a subscription-based licence model; sale conversion rate **above 98%**.

- Led strategic planning sessions with C-level executives and sales events across Mumbai, New Delhi, Chennai and Kolkata; led reseller channel programmes in India and the Middle East.
- Built a global support system (Power Automate, Power BI metrics) handling 300+ tickets per release at ~3-day resolution; trained 4,500+ users.

Senior Software Engineer · Exo-Field Engineering Solutions, Navi Mumbai 01/2018 – 01/2019
Product: Exo-Vision, AI/ML anomaly detection for oil-drilling bits · team of 6

- Contributed to product development with image processing, OpenCV and TensorFlow; turned engineering concepts into Excel models for developers; built 3D-printed prototypes to simulate faults for testing.

Manager – Project Management Group, Core Engineering – Data Analytics (PMO-PMT) · Reliance Industries, Navi Mumbai 05/2014 – 12/2017

- Manager in the PMO of the **US$13B+** J3 Petrochemical Complex, Jamnagar (400,000 MT steel, 220,000 MT concrete).
- Owned reporting and forecasting across **13 projects** in an 86-person project management group; each project's predefined targets were over-achieved. Tools: Excel macros, SAP MM, MATMAN.

Structural Engineer, Geoconsult India · Structural Design Engineer, Energy Infratech 07/2010 – 04/2014
Hydro-power (up to 1,200 MW, Teesta III), tunnel and metro projects (Delhi Metro, Mumbai Metro Line 3)

EDUCATION

MSc Project and Programme Management & Business Development (Bac+5) · SKEMA Business School, Paris 01/2024 – 08/2025
Thesis: Decision-Making in Virtual Reality Experiment – Analyzing Feedback, Incentives, and Performance

Post Graduate Diploma in Computer Application (Bac+5) · Annamalai University, India 2018 – 2019

Bachelor of Engineering, Civil Engineering (Bac+4) · Anna University, Government College of Engineering, Salem 2006 – 2010

CERTIFICATIONS

PMP (PMI) · Certified SAFe® 5 Product Owner/Product Manager · AgilePM Foundation (APMG) · Scrum Master (Agile Business Consortium) · ISTQB CTFL · Green Project Management (GPM-b) · Tekla Structures (A++)

ADDITIONAL EXPERIENCE & INTERESTS

- Freelance QA tester, Tyber (crowdsourced testing): usability, UX and A/B testing (02/2024 – present)
- Sales & Project Coordinator, India House, Paris 2024 Olympics (07/2024 – 08/2024) · VR Project Coordinator, SKEMA (06/2024 – 07/2024)
- Interests: trekking (Everest Base Camp, Fansipan), backpacking, motorcycling, VR, sustainability
